WELCOME

Welcome to the Woonallee Elite production sale for 2024. 12 months is a long time in the Australian beef industry and things have certainly changed.

One thing that has become clear though is that cattle with weight and quality are getting rewarded in the marketplace and we have seen many clients still getting a premium with our genetics.

2023 was incredibly rewarding for us at both our on-property and Tamworth sales with strong results and a full clearance at both. These results as well as selling a large number of paddock bulls since has meant 2023 has been our biggest year to date selling in excess of 250 bulls to all states of Australia. With bulls working in herds from Tasmania to the Gulf in Queensland, the geographic spread is incredibly vast. We continually hear that these bulls are adapting to their new environments, growing out, getting cows in calf and most importantly the progeny are increasing the profitability of the herds they are in.

This draft of bulls is one we are incredibly excited about. We have made no secrets that we've been sourcing the very best genetics from within Australia and throughout the world and the benefit of this investment is now very evident. These bulls are extremely consistent with excellent growth for age, strong carcase traits, structurally sound with style, softness, and efficiency. These bulls run in large contemporary groups with the cream rising to the top and being selected for this sale.

All bulls in the sale have been genomically tested, parent verified, carry a PI negative pestivirus test and tested for poll and colour status with this clearly marked in the catalogue. You will notice the change from breedplan EBVs (Estimated Breeding Values) to IGS EPDs (Expected Progeny Differences) in this

catalogue. There is an information page on page 7 which will help explain what these new figures mean and how to best use them. IGS is the world's largest beef genetic evaluation system with over 18 million animals having being assessed across 20 different breeds. Our recent trip to the USA reiterated the benefits and accuracy of the IGS system. We find it extremely beneficial with selecting calving ease options and these figures combined with actual birth weights and the right design through the front end have given us confidence to highlight heifer safe options in the catalogue.

All of the lots will have a photo and video loaded on Auctions Plus by late January with a QR code located in the catalogue which will take you to the AuctionsPlus website.

Getting a catalogue to the printer before Christmas unfortunately means the first photos you see in the catalogue are taken 2 months out from the sale, and because they change and develop so much in that time, we feel it is important to take the bulk of the photos/ videos for you as close to sale time as possible. Please note these bulls are prepared for the rest of their life, not for 1 day of their life, they will present in good forward order.

We will have our online female sale the night before the bull sale on the 7th of February at 5:30pm. All females will be penned for inspection around lunchtime on the 7th. These females are a great representation of our herd and have both the phenotype and genetic strength to take your herd to the next level. This sale will be online only on Auctions Plus.

Thank you again for your support over the past year and please feel free to contact us if you require any further information.

Regards

Tom and Lizzy

2024 SALE

FIELD DAY

Monday, 5th February

South Australian Beef Field Day On Property

ONLINE FEMALE SALE

Wednesday 7th February

Females will be penned and available for inspection from 1pm

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to **www.auctionsplus.com.au** to register at least 48 hours before the sale.

2

Select **"Sign Up"** in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select **"Dashboard"** and then select **"Request Approval to Buy"**.

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: info@auctionsplus.com.au

SALE INFO

HEALTH

Woonallee Simmentals has a JBAS score of 8 and eligible for all states in Australia including WA. All Bulls have received two shots plus a booster of 7 in 1, drenched with Eprinex Pour On and ear notched tested negative for pestivirus. Bulls have received two shots of Pestiguard with a booster due in November 2024. Bulls have all passed a semen and morphology test conducted by Nationwide Artificial Breeders.

DNA, COLOUR AND POLLED TESTING

All sale bulls have been tested for poll status, a 100K genomic test, sire verified and black bulls tested for colour aswell. This information is in the catalogue.

TRANSPORT

Falls transport will be in attendance and is the recommended carrier for interstate deliveries. Purchases of three or more bulls will be delivered free of charge Australia wide. Woonallee will deliver free of charge within a 250km radius of Woonallee.

TRANSFERS

All animals are registered with the Australian Simmental Breeders Association and are eligible for transfer. Please indicate on the buyer's instruction sheet if you would like your purchases to be transferred.

BUYER REGISTRATION

Buyers are requested to register with the selling agent prior to commencement of the sale and to display their registration number at the fall of the hammer. This sale will also be interfaced with Elite Livestock Auctions and Auctions Plus. Please see information on page 5 of this catalogue to register.

INSPECTION AND SALE TIMES

Sale animals will be yarded and available for inspection from 10:30am on sale day Thursday, 8th February. Selling to commence at 1.00pm sharp. Supplementary sheets available on sale day. Private inspection before sale day can be arranged by contacting Tom Baker on 0428 475 066. All times quoted are SA daylight savings time.

GST

All lots are sold exclusive of GST.

PHONE BIDDING

Please contact the selling agent to arrange phone bidding. Sale Complex number (08) 8734 3118 or contact Ben Finch on 0408 802 760.

REBATES

A rebate of 2% is available to outside agents introducing buyers in writing to the selling agent prior to the sale and settling within 7 days.

INSURANCE

Woonallee recommends insuring all purchases at the fall of the hammer. An insurance representative will be available on sale day to help with this.

GUARANTEE

All cattle sold at Woonallee come with a two year structure and fertility guarantee. In the rare case a bull is found to be infertile or incapable of natural service, Woonallee will refund or replace the bull provided the problem is not caused by injury or disease incurred after taking delivery.

EPD INFO

With the introduction of the IGS performance recording system for Simmental cattle, IGS is the world's largest animal performance recording system.

One of the major changes is the breeding figures being reported as Estimate Progeny Differences (EPDs), rather than Estimated Breeding Values (EBVs). The difference between the two is simple.

Effectively, an EBV is an animal's own genetic value for a particular trait. However, the animal can only pass half of this onto their progeny. EPDs have the "half" already accounted for. That is, an EPD is the genetic merit of an animal's progeny – what they will pass onto their progeny.

Simmental - Traditional, Fullblood and Simbrah Register Breed Average

	CED	BW	WW	YW	MILK	MCE	MWWT	STAY	DOC	CW	REA	FAT	MARB	YG	AAPI	ATI	API	TI

Polled and Coat Color Information:

PP - Homo Polled - the bull carries two copies of the polled gene

Homo Polled Homo Polled 100% Polled
Hetero Polled 100% Polled
Horned 100% Polled

Pp - Hetero Polled - the bull carries one polled gene and one horned gene

Hetero Polled Homo Polled 100% Polled
Hetero Polled 75% Polled, 25% Horned
Horned 50% Polled, 50% Horned

Homo Black - the bull carries two copies of the black gene

Homo Black Homo Black 100% Black

Hetero Black 100% Black
Red 100% Black

Hetero Black - the bull is black in color, but carries one black gene and one red gene. Black is dominant to red, so the red color is not expressed when it is paired with a black gene.

Hetero Black Homo Black 100% Black
Hetero Black 75% Black, 25% Red
Red 50% Black, 50% Red

Red - the bull carries two copies of the red gene. This example assumes the bull is diluter free.

Red Homo Black 100% Black
Hetero Black 75% Black, 25% Red
Red 100% Red

SimAngus Bulls

Our SimAngus programme is fast becoming one of the real features of this catalogue. We have invested heavily with the purchase of Millah Murrah Quixote for \$60,000 and Millah Murrah Rembrandt for \$240,000 over the past few years with the simple aim to combine the very best Angus genetics with the very best Black Simmental genetics to produce a superior hybrid beef bull. We firmly believe we are getting towards our goal and are confident this year's line-up will impress. The first Rembrandt progeny will be a feature in the sale and we are excited to present them to you. Softness, doing ability, capacity and structural soundness are traits these bulls display together with increased fat cover and marbling. There are calving ease options highlighted in the catalogue if you are after a heifer bull or power options for your cows.

Livestock insurance that fits

In the livestock business, we understand it takes years to breed and produce your stock, which is why it pays to make sure you're protected if the unexpected occurs. Elders Insurance offers a wide range of risk protection options in one policy to cover any livestock enterprise you may be involved in. As we all know, there is always an inherent risk when transporting livestock but many of us forget about the risks while they are in the paddock. With every season and area being different it is important to consider all of the potential risks to your livestock and ensure you have suitable cover in advance for unforeseen circumstances involving your valuable livestock assets.
