Welcome

Welcome to our first Northern Performance Bull Sale. After 5 successful sales at Tamworth, the decision was made for a couple of reasons to make the move into Queensland.

Firstly, the terrible drought conditions that the Tamworth region has suffered has obviously led to a large number of females being sold out of the area and as a result, there simply isn't the demand for bulls and secondly, 60% of the bulls sold at Tamworth have been going back up into Queensland so it made sense to take the sale up north.

This draft of bulls truly represents the Woonallee stamp of quality with structurally sound, easy doing, slick skinned bulls that can cover the ground with ease. The Traditional bulls are an impressive draft of 2 ½ yr olds that are powerful and thick with performance and style. Sires represented include Woonallee Nashville N39 (who sired the top priced traditional bull from our February sale) and Woonallee Notice who has done such a great job producing industry relevant cattle.

The Black bulls are a combination of both 2 yr olds and 18 month-old bulls with both purebred and Simangus bulls available. Once again they have the structure, performance and doing ability to thrive in the north which they have been doing as far north as Georgetown. The genetics represented in these black bulls consist of both imported sires such as Gibbs Essential, Gibbs Signature and KBHR Honor aswell as homebred sires such as Woonallee Rawhide, Woonallee Show Stopper and Woonallee Think Big who continue to produce the right kind of progeny that are commercially relevant and sought after.

Tom and Lizzy Baker

Once again, all bulls offered for sale have been DNA tested, Sire verified, BVDV tested negative, treated with 3 germ blood and vaccinated for 3 day sickness aswell as passing a semen test. Steve Hayward and Kellie Smith have once again done a great job in preparing the bulls for us and if you would like to inspect them prior to the sale, please feel free to contact us or Steve to arrange.

Thankyou again for your support and we wish you all the best with your purchases.

Sale Information

HEALTH

This draft of Woonallee Bulls have a J-Bas score of 6 and are eligible to all states Australia wide. Bulls have been fully vaccinated with 7in1, Pesti guard, 3 day sickness, 3 germ blood and vibrio. All bulls have been tested negative for Pesti virus. Semen testing has been conducted by Rosewood Vet Services and all bulls offered for sale have passed a semen test.

DNA, COLOUR AND POLLED TESTING

All bulls have been tested for colour and polled status with the results indicated in the catalogue. They have also been 100K DNA tested and sire verified.

DELIVERY

Woonallee and Elders will organise delivery of the bulls at the conclusion of the sale. Please fill out the buyers slip with clear directions and contact phone number.

TRANSFERS

All animals are registered with the Australian Simmental Breeders Association and are eligible for transfer. Please indicate on the buyer's instruction sheet if you would like your purchases to be transferred.

BUYERS REGISTRATION

Buyers are requested to register with the selling agent prior to commencement of the sale and to display their registration number at the fall of the hammer. This sale will also be interfaced with Auctions Plus. Please see information on page 6 of this catalogue to register.

INSPECTION AND SALE TIME

Sale bulls will be yarded and available for inspection from 9am on sale day Thursday 15th October. Selling to commence at 11am sharp. Supplementary sheets will be available on sale day. For pre-sale inspections please contact Anthony Ball 0428 275 499 or Steve Hayward 0419 642 992. All times quoted are Australian Eastern Standard Time.

GST

All lots are sold exclusive of GST.

PHONE BIDDING

Please contact the selling agent to arrange phone bidding. Anthony Ball 0428 275 499.

REBATES

A rebate of 3% is available to outside agents who attend the sale with or on behalf of their clients.

INSURANCE

Woonallee recommends insuring all purchases at the fall of the hammer. An insurance representative will be available on sale day to help with this.

GUARANTEE

All cattle sold at Woonallee come with a two year structure and fertility guarantee. In the rare case a bull is found to be infertile or incapable of natural service, Woonallee will refund or replace the bull provided the problem is not caused by injury or disease incurred after taking delivery. A veterinary certificate will be required.

HANDLING

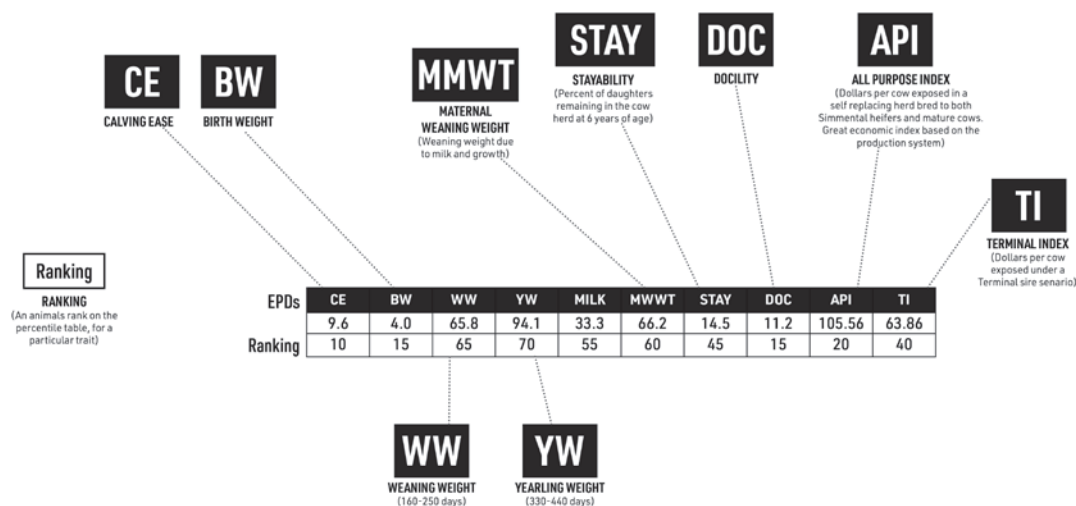

Bulls have been handled on foot, with utes, ATVs and dogs. They haven't seen horses, motorbikes or helicopters!

For the very best in Simmental,
whatever the requirement

EPD Information

IGS is the world's largest animal performance recording system. One of the major changes is the breeding figures being reported as Estimate Progeny Differences (EPDs), rather than Estimated Breeding Values (EBVs). The difference between the two is simple.

Effectively, an EBV is an animal's own genetic value for a particular trait. However, the animal can only pass half of this onto their progeny. EPDs have the "half" already accounted for. That is, an EPD is the genetic merit of an animal's progeny – what they will pass onto their progeny. IGS can incorporate an animal's genomics into its performance data. All animals in the Woonallee Tamworth sale have been 100K GGP-LD DNA profiled.

Simmental - Traditional, Fullblood and Simbrah Register Breed Average

	CED	BW	WW	YW	MILK	MCE	MMWT	STAY	DOC	CW	REA	FAT	MARB	YG	API	TI

Polled and Coat Color Information:

PP - Homo Polled - the bull carries two copies of the polled gene

Homo Polled Homo Polled 100% Polled
Hetero Polled 100% Polled
Horned 100% Polled

Pp - Hetero Polled - the bull carries one polled gene and one horned gene

Hetero Polled Homo Polled 100% Polled
Hetero Polled 75% Polled, 25% Horned
Horned 50% Polled, 50% Horned

Homo Black - the bull carries two copies of the black gene

Homo Black Homo Black 100% Black

Hetero Black 100% Black
Red 100% Black

Hetero Black - the bull is black in color, but carries one black gene and one red gene. Black is dominant to red, so the red color is not expressed when it is paired with a black gene.

Hetero Black Homo Black 100% Black
Hetero Black 75% Black, 25% Red
Red 50% Black, 50% Red

Red - the bull carries two copies of the red gene. This example assumes the bull is diluter free.

Red Homo Black 100% Black
Hetero Black 75% Black, 25% Red
Red 100% Red
